The HISTORICAL CHARTS OF THE LITERATURES

(English, 25c.; American, 20c.; German, 25c.)
(Others in preparation)

Every year more Schools, Normal Schools, and Colleges are adding them to their regular textbook requirements.

When used by students throughout the year, they

Keep Chronology Clear

When used in review at the end of the year, they dissipate the historical fog which will inevitably have accumulated.

Incidentally, the Charts put a new interest into the final review—a thing altogether difficult and desirable.

and CYRUS LAURON HOOPER
Principal of the John McLaren School

is a forceful example of the principle. By two of the strongest supporters of this practical doctrine, the series is characterized by the essential and the appropriate. It trains the child to habits of thought development and, at the same time, guides him in the mechanics of writing.

The books contain a variety of language experiences, both oral and written, and as much technique as is serviceable to children from the fourth to the eighth grades inclusive.

The principles of grammar selected for presentation are those which have been found to be directly useful in the improvement of speech and writing.

Alive with the most modern and interesting subject matter.

PUBLIC SPEAKING

By JAMES A. WINANS
Professor of Public Speaking in Cornell University

TREATS of public speaking as practiced by business and professional men. Sets forth principles and practical suggestions which are equally serviceable before a small committee or a large audience.

Speech preparation and delivery; how the speaker thinks and how the audience thinks. Most space is devoted to the principles of attention, interest, persuasion, and conviction.

At once scholarly and interesting.

Makes no pretense of guaranteeing success as an "orator"; but will greatly help any person of intelligence, who will study and practice persistently, in becoming a good speaker.

For college classes, and for the man who must teach himself. Valuable also for secondary-school teachers, who can adapt much of its material to their work.

Adopted before publication, on the basis of the author's *Notes on Public Speaking*, by the University of Virginia and the University of California.

The Kingsley English Texts

A new series, covering thus far eleven books. The edition is *distinctive* in several features

1. The Kingsley Outline is included in the book. This Outline is a most helpful guide to the student. It is perfectly legitimate and gives needed inspiration and insight. (The Kingsley Outline Studies, now covering 78 different English classics, are used in thousands of schools throughout the world.)
2. The footnotes are so made as to lead the pupil to do his own thinking. They avoid the common error of doing too much for the pupil.
3. The Kingsley English Texts are artistically printed and bound. The print is of good size, presenting a page that saves eye-strain. The covers and gilt lettering are attractive and cultivate the taste of the pupil.
4. Scene-Settings. Every teacher who has used them is enthusiastic over the "Scene-Settings" in the Shakespeare texts. These help the student to "visualize" the scene.

The Kingsley English Texts have recently been adopted for four years by the state of California.

The list at present is as follows:

	CLOTH	PAPER		CLOTH	PAPER
Julius Caesar	\$0.40	\$0.25	The Sir Roger de Coverley Papers	\$0.40	\$0.30

A Notable Collection

Pancoast's English Prose and Verse

From Beowulf to Stevenson

By HENRY S. PANCOAST

816 pp. 8vo. \$1.75

This is a collection of readings intended to supplement a general course on the history of English literature. The author's previous books of readings—*Early English Poems*, *Standard English Poems*, and *Standard English Prose*—have been used as the basis for the present volume, but a large number of new selections have been added, while others, especially in the period before Chaucer, have been omitted. The notes, which have been placed at the bottom of the page, have been made as brief and as simple as possible.

The book aims to represent the more important authors, from Chaucer down, by suitable or typical selections, as fully as the space will allow. But the more important writers, especially those of the Victorian period, as they are nearer to the sympathy and interest of the student, have been given a relatively larger space. Besides this, an effort has been made to give fresh selections which shall be both historically significant and interesting in themselves.

The selections from the Old and Middle English period are translated or modernized; in rendering the poetry the endeavor has been to preserve the poetic form, as well as the meaning and spirit of the original.

There are about 750 selections in the book, the space given to prose and poetry being nearly equal. The number of authors represented is about 225.

An account in detail of

The Shakespeare Festival

given at Teachers College

appears in the March, 1916, number of the

Teachers College Record

Illustrations of scenes and color plates of costumes are given with the text of the Festival. The Producing of the Festival, showing the correlation of the work of various departments of the College, is described. The contribution of the Foods and Cookery Department—the dispensing of Elizabethan hospitality—is described and illustrated, and recipes of Elizabethan cookery and their adaptations to modern palates are reproduced. Then follows a series of articles on exhibits, recitals, and other features of the Shakespeare Celebration useful to those planning similar festivals.

PRACTICAL ENGLISH COMPOSITION

By **EDWIN L. MILLER**

Principal of the Northwestern High School
Detroit, Michigan

A radical departure in methods of teaching English, flexible, direct, and informal. Each text may be used independently, or as a supplement to a formal rhetoric.

Book I. Teaches the freshman how to write a correct, coherent, readable letter, how to speak fluent, graceful, precise English, how to gather material and criticize his own work, and begins the study of description. *List price 35 cents. Postpaid.*

Book II. Reviews description, teaches the sophomore the fundamentals of narration through news writing, and takes up advertisement writing. *35 cents. Postpaid.*

Book III. Begins advanced composition in the junior year, deals with various methods of narration and description, and takes up exposition in detail. *35 cents. Postpaid.*

Book IV. Reviews exposition and develops the subject of argumentation—oration and debating—in the senior year. *In preparation.*

MEET SPECIAL NEEDS

How to Study and What to Study

By **RICHARD L. SANDWICK**

This book is one that deserves to be read by every Freshman in high school. It will do two things for him: (1) it will give him much-needed advice on the way in which he may secure the most from his high-school course, and (2) it will give him prevocational information on the value of the various studies which he may take up in high school, as related to his future occupation, that he can obtain from no other book now published. So well written is this book that a great many schools have already introduced it as a text to be read by all Freshman classes in English.

Written English

**A Course of Lessons in the Main Things to Know in
Order to Write English Correctly**

By **EDWIN C. WOOLLEY**

Author of Handbook of Composition, etc.

This new book for first-year classes in secondary schools offers a practical and successful course in the essentials of correctly written English. There are numerous books upon constructive composition, but this is the first book that has sought primarily to secure formal accuracy in those matters that are most seriously criticized by the world at large as defects in school training in English. The chapters treat: Manuscript Arrangement, Grammatical Correctness, Punctuation, Spelling, and conventional usage in Letter-Writing.

Woolley's *Written English* removes more of the perplexities of the teacher of first-year English than any other book as yet published.
